PREFACE.

At a meeting of the following town officers, to wit : Supervisor, James E. Bayles ; Town Clerk, Henry P. Hutchinson and Justices, D. H. Buckingham, George W. Hopkins, Timothy Ketchum, A. H. Mills, George T. Osborn, D. H. Raynor, Charles R. Smith, and Wm. J. Weeks—at the Clerk's office, on Tuesday, March 3d. 1885, among the resolutions adopted and to be submitted to the electors of the town at the ensuing annual town meeting, was the following :

“ Resolved, that the copying and publication of the Records of the town of Brookhaven now in the clerk's office, be continued from the close of the present published volume under the direction of the Supervisor and Justices of the Peace.”

At the ensuing annual town meeting, the whole number of ballots cast, in reference to the above resolution, was two hundred and seventy-two, of which two hundred and fifty-two were in favor of it, and twenty against it.

At a meeting of the Supervisor, Town Clerk and Justices, held in Patchogue, May first, 1885, the following resolution was adopted :

“ Resolved, that the Supervisor, James E. Bayles Geo. T. Osborn Esq. and William J. Weeks Esq. be and hereby are appointed and authorized to take charge of the copying and publication of the “ Records ” of the Town of Brookhaven, in accordance with Resolution, No. 2, passed at Town Meeting, April 7, 1885.”

In executing the trust comprised in the foregoing resolutions, the committee first met at the town clerk's office, June 16th. 1885 and engaged Miss Cynthia Hutchinson—who had convenient access to the records and experience in copying—to prepare a manuscript copy of the records, and whenever

a supply of this manuscript was ready, the committee has met from time to time to compare the copy with the original records and correct any errors which might appear in the copy. In doing this work, the records have been followed in their order as they appear, and the copy has been carefully and diligently compared with the originals, exhibiting the capital letters, the spelling, the abbreviations, the punctuation and the OMISSION to punctuate, in fact omitting nothing which seemed to be an authentic part of the records.

The undersigned believe that to all intents and purposes, the present volume is an accurate transcript of the entire records within the dates specified.

A few notes have been introduced here and there, which might be useful for reference or explanation.

Owing to the greater amount of recorded material of late years, it is possible another volume, equal to or larger than the present one, may be required to include the records down to the year 1885.

January 6th, 1886.

We Samuel Davis Junr. John S. Mount and Smith Rider commissioners of highways of the town of Brook haven do hereby certify that on this day we have inspected a certain road leading from the highway between Setauket and Drown meadow to the land of Brewster hawkins commenc-

ing nearly opposite the store of Charles Tyler in Setauket and running from thence Northerly by the Land in the possession of Harvey Hulse and Eliza his Wife Daniel Robbins and Walter Jones on the East side thereof and David Cleves on the west side thereof about Seventy Rods until it reaches the land of the said Brewster Hawkins about seven rods to the Northward of the house of the said David Cleves. And we have also made due enquiry relative to the said Road and find that no record thereof has been made in the office of the Clerk of the County of Suffolk or of the town of Brook haven but we are Satisfied and do adjudge that the said Road has been used as a public highway for twenty years and more next preceding the twenty first day of March one thousand Seven hundred and ninety seven and from thence to this date and it appearing to us on inspection of the said road that the same is less than three Rods wide we proceeded to mark and designate by stakes where the respective owners of the land adjacent to the said road shall or may set their respective fences making the road three rods wide ; And we do hereby order and direct that the Overseer of the highways in whose District it is situated to open the said Road to the width and places which we have thus designated in pursuance of the Act in such case made and provided—

And we do further Judge that the said Walter Jones as it respects the land in his possession which we have thus taken the said Harvey Hulse and Eliza his wife and her Daughter Eliza Hulse the younger as it respects the land in

the possession of the said Harvey Hulse and Eliza his wife which we have thus taken the Said Daniel Robbins and Phillip Longbothom as his Mortgage as it respects the land in the possession of the said Daniel Robbins which we have thus taken and the said David Cleves as it respects the land

in his possession which we have thus taken (so far as it relates to the several portions of the said several tracts of land now actually within fence and have been within fence within the last twenty years precedeing this date) are respectively entitiled to the value thereof with such damages as they shall respectively sustain by our taking the same for a highway dated this Seventh day of July in the year one thousand eight hundred and twenty nine

Be it remembered that whereas there has been much complaint to us the Trustees of the freeholders and commonalty of the town of Brookhaven respecting the rate of wharfage at the Dock at Stoney Brook harbour formerly granted by said Trustees to George Hallock and now owned by Charles D Hallock and after hearing the proofs and allegations of both parties and also appointing a committee to inspect into the premises do make the following alterations and restrictions viz. vessels lying next to the Dock to pay as usual all other vessels lying second third or fourth from said Dock to pay six cents a day after lying twenty four hours. All Barrels of flour or other provisions landed on said Dock one Cent pr. In the Case of the appeal of Christopher Robinson and others Inhabitants of District No. 13 in the town of Brook haven it appears that on the 23rd. Dec. 1829. the commissioners attached a portion of said District to an adjoining District No. 14. and established the line so as to leave the School House No. 13. in District No. 14 it is said the school House was of little value was near one line of District No. 13. and was built by proprietors but it seems to have been the District School House and was used as such, before the alteration 13 had many more Scholars than 14. since the change 14. has much the greater number as to the precise number is is not easy to ascertain from a contradiction in the statements if District No 14 was too small the two should have been consolidated and not divided so as to leave reason to complain after the alteration as 14 had before after reading all the paper in this case I am induced to think that No. 13. ought to have her school house poor as it is therefore decided that the alteration made between

Districts No. 13. and 14. on the 23 Dec 1829. in setting a part of No. 13. including the school house to No. 14. be and the same is hereby set aside and the two districts are restored to their original boundaries

Trustees of School District No 19 also versus Town Supt Supervisor and Town Clerk of Said Town	}	

From the statements presented in the two appeals Signified
in the title of this paper it appears that on the 28th of Oct.

1854 The Town Superintendent of Brookhaven Suffolk County in concert with the Supervisor and Town Clerk of Said Town associated with him upon the application of the Trustees of District No 18 in said Town did determine & describe the boundaries of said district. In so doing they set off a portion of its admitted territory to District No. 17 which adjoins on the north They failed to find any Recorded boundary on the eastern side nor as it appears any boundary very clearly defined by occupation or actual exercise of Jurisdiction—They however established a line from which the Trustees of the conterminous dist. No 19 dissent regarding the order as an alteration of their district as well as of Dist—No 18

The appellants deny that the establishment forming the eastern boundary was an alteration because there has been no boundary previously established and insist that consequently the newly defined line became that boundary at once instead of remaining inchoate until the first day of May 1855 as must otherwise be the case

It is impossible under the circumstances to determine whether the line established between districts 18 and 19 was a new boundary the law presumes that there was an ascertainable boundary heretofore tho its precise location has been lost. The appellants state that some of the Inhabitants of district No. 19 claim that a line known as the Yaphank line constituted that boundary : an attempt to disprove this allegation by showing that Individuals Residing in houses east of that line have sent their children to school in district No. 18 which children have been for years included in their annual reports made by the Trustees of said district : moreover, that Samuel Glover while Inhabiting the house farthest east of the Yaphank line and nearest the line established in Oct. last was elected Trustee of district No. 18 so long ago as 1829—The map accompanying the appeal shows that the land appertaining to and occupied

with one of the houses above mentioned comes up to the eastern boundary as established in Oct. But that land does not extend the whole length of that

PAGE 39.

boundary and in opposition to the inference that might be drawn from it. stands the fact that the house of one Thos. Aldrich was recorded as the western boundary of a district which is now No. 19 This house stands northward of the old boundary of district No 18 but much nearer the Yaphank line than to a continuance of the new line

The evidence is not sufficient to enable Supert. to decide whether the line established in Oct. last is the veritable ancient boundary of the district tho probably it does not widely diverge therefrom :

Whereas it should be definite enough to enable a private Individual to recover in an action of ejeement. So long as it remains a matter of reasonable doubt whether the order in question amounts to an alteration. No 19 tho not affected by an actual alteration would be seriously affected by the division that such alteration has not been made & should therefore in equity be considered as entitled to the same delay before the order becomes operative—

In fact the commissioners have no jurisdiction in the matter except for the purpose of making an alteration and their declaration in respect to an old boundary is of no more legal force than that of the same number of other intelligent persons except that they can make it the boundary tho it was not before—

The order of Oct. 1854 due notice thereof having been given will take effect upon the first day of May next. so far as the eastern boundary of said district No 18 is concerned

No question relative to the other boundaries is properly before this department on the two appeals but if evidence

is obtained of the assent of the trustees of the other districts affected this decision will not prevent said order from taking effect as to the alterations aforesaid immediately upon the day when it was granted by the officers named in this paper—

These appeals are therefore dismissed. The Town Clerk of the Town of Brookhaven and the clerks of districts No 18 and 19 are directed to record this decision—

In the matter of the appeal of Wm Sidney Smith from an order of the Town Supt. and Town clerk of Brook haven to establish the boundary between School districts Nos. 18 and 19 in sd town }
Rice Superintendent

The facts presented upon this appeal were in great part before the Department upon an appeal in Jan. last It was then decided that the line established by the order appealed from was not so proven to be the ancient boundary as to Justify the department in regarding that order otherwise than as an alteration of the districts concerned.

The propriety of that conclusion is strengthened by the evidence now adduced. Though not entirely conclusive it goes far to prove that the "Yaphank Line" so called has been for many years claimed and regarded by the Inhabitants of district no. 19 as the boundary dividing them from district no. 18 Occasional acts of the Trustees of district No 18 in admitting Children as pupils whose residence was in dist. no. 19 if the Yaphank line was the true boundary, and in one case even electing as a trustee the Father of some of those children whose residence is closely adjoined to that boundary, have tended in some degree to obscure a question the solution of which has been left to depend upon oral

tradition and acts of use, instead of documentary evidence. These acts are capable of explanation on the ground of indulgence to the children and mistake as to the proper place for their enumeration, arising from the fact that such indulgence has been suffered to grow into custom. If however the evidence in favor of the Yaphank Line as the former boundary is not so satisfactory as is desirable, there is on the other hand a total of all evidence in favor of the Hay Road the newly established boundary. The most that is proven is that the Yaphank Line was sometimes overstepped, but there is nothing to fix the hay Road as the limit. The order must therefore be regarded as an *alteration* of the districts; and regarded in this light there is no evidence of any such necessity or expediency as should Justify the trans-ferment of a large amount of taxable proper from district no. 19 which is very weak and has very small population to district no 18 which already possesses a much greater amount of property. It is quite possible that an alteration ought to be made which would transfer to dist. No 18 that portion of the territory in the extreme southern part of district no. 19 the Inhabitants of which have been permitted to send pupils to the School in dist. no 18 for the purpose of promoting the convenient access of such pupils to the means of Instruction. The Supt. however has not the requisite information to define such Territory This appeal is sustained and the order appealed from, so far as it establishes the eastern boundary of School dist. no 18 is vacated. The Town clerk of Brookhaven is directed to record this decision
